

# Chat and Play - expert advice from local practitioners - Sensory Support Teachers

08

Dec

⊙ n/a

📍 Online .

Are you concerned about your child's hearing or worried they might have Glue Ear? Are you worried that your child frequently mouths objects or is over sensitive to certain sensations, such as noise? We are specialist teachers qualified to work with children and young people with hearing, vision or multi-sensory needs.

We can offer parents:

- practical advice and information on hearing, vision and other sensory difficulties
- games and activities to play with your child to help build listening, looking and attention skills
- information on what to do if you find out your child has 'Glue Ear'
- advice on looking after hearing aids and glasses
- information on squints and patching

The session with the specialist will last 20 minutes. You will need to choose your preferred time using the online registration form and a member from Achieving for Children will confirm this with you and send you the video link via email.

This session is for Kingston parents and carers only.
