TRAPHIC Twickenham & Richmond Area Parents of Hearing Impaired Children

Organisation Details

Description of activity

Parents of Hearing Impaired Children

- Does your child have a permanent or persistent hearing loss?
- Would you like to meet other parents of hearing impaired children?
- Would you like to help your child and other children with hearing impairment?

Traphic is a group of local parents of hearing impaired children. Some of our children have permanent losses of varying degrees, some have persistent glue ear.

We carry forward our members' ideas for helping our children cope with their challenges. Along the way we will share our ideas and tips as parents and members of the community.

We meet three times a year either in a local coffee shop or pub. The gathering is very informal.

Please come along and join us, we welcome new parents.
