Wheels for All

Organisation Details

Description of activity

Surrey Wheels for All aims to enable everyone to experience the joy and benefits from cycling.

The main focus of Surrey Wheels for All is to offer cycling to disabled people. We have over 80 adapted bikes and we are confident that anyone can ride a bike regardless of their ability.

We offer sessions during the week and at weekends that are open to the public for cyclists of all abilities.

Our sessions are about recreational cycling where people can focus on fun and the health benefits of riding bikes.

We also offer families who want to experience cycling together and who may not currently be able to due to an individual family member's disability, the opportunity to have fun on wheels!

Sessions are held in West Ewell and Woking
